# What's in the Protocol 9 of the Learned Elders of Zion "Re-education"?

Sixbert SANGWA • July 21, 2024

In our quest to understand modern geopolitical dynamics, it is essential to investigate the influence of ideological documents like the Protocols of the Learned Elders of Zion. This document outlines a strategic framework by a clandestine group aiming for global domination. By examining it, we uncover strategies to subvert societal morals and reconfigure governance structures, with the ultimate goal of altering God's design and handing dominion over to Lucifer. In this brief article, we will delve into protocol 9, one of the document's 24 protocols, titled "Re-education". This exploration will contextualize these strategies within historical and contemporary trends, providing a quick analysis of their impact on global affairs and the spiritual landscape.

## The Subversion of Morals and Ideological Re-education

Protocol 9 begins by emphasizing the importance of tailoring strategies to the character of the people in various nations. The document suggests a gradual and cautious application of its principles to reshape societal values, stating, *"A general, identical application of them, until such time as the people shall have been re-educated to our pattern, cannot have success."* This incremental approach to re-education hints at a methodical undermining of traditional values over decades, thereby molding a populace more amenable to control.

The document also highlights a shift in the interpretation of the liberal ideals of *"Liberty, Equality, Fraternity."* These principles, deeply rooted in Western democratic thought, are to be transformed into mere expressions of idealism rather than practical watchwords. This subversion is aimed at neutralizing the moral and ethical underpinnings of society, replacing them with a superficial adherence to ideals. As the protocol asserts, *"The words of the liberal, which are in effect the words of our masonic watchword... will... be changed by us into words no longer of a watchword, but only an expression of idealism."*

In today's world, we can observe the implementation of these strategies in various forms. The pervasive influence of media and the internet has reshaped public perception and societal values, often promoting a relativistic view of morality. Educational institutions have increasingly embraced secular ideologies, sometimes at the expense of traditional values. Additionally, the reinterpretation of liberal ideals such as equality and fraternity can be seen in the rise of movements that prioritize ideological purity over practical governance, leading to polarized societies. The modern usage of equality often emphasizes equal outcomes rather than equal opportunities, while fraternity is sometimes leveraged to foster unity within specific ideological groups, often excluding those with differing viewpoints. More disturbingly, fraternity is also being used to advance a sinister plan of creating a one-world religion, uniting diverse faiths under a single, controlled belief system. These trends reflect the gradual and cautious application of principles outlined in Protocol 9, demonstrating a strategic shift in shaping societal norms and values.

## The Role of Media and Education

One of the most potent tools in this re-education process is the manipulation of media and educational systems. Protocol 9 reveals a deliberate strategy to infiltrate and control these institutions: "We have got our hands into the administration of the law, into the conduct of elections, into the press, into liberty of the person, BUT PRINCIPALLY INTO EDUCATION AND TRAINING AS BEING THE CORNERSTONES OF A FREE EXISTENCE." By influencing the information disseminated to the public and the education of youth, this covert group can shape perceptions, values, and beliefs to align with their objectives.

The protocol admits to corrupting the youth by instilling false principles and theories, thereby eroding their moral foundation. This aligns with biblical warnings about the corruption of the innocent. In Matthew 18:6, Jesus warns, *"But if anyone causes one of these little ones who believe in me to stumble, it would be better for them to have a large millstone hung around their neck and to be drowned in the depths of the sea."* This verse underscores the gravity of leading the youth astray and highlights the moral reprehensibility of such actions.

In today's context, these strategies are evident in various societal trends. The pervasive influence of social media platforms, which often promote sensationalist and polarized content, has significantly shaped public opinion and societal values. Educational curricula in many regions have shifted towards secular and relativistic ideologies, sometimes at the expense of traditional moral teachings. This shift can be seen in the increasing acceptance of moral relativism, where the distinction between right and wrong becomes blurred. The rise of *"cancel culture"* and ideological purity tests in both educational settings and public discourse further reflect the manipulation and control described in Protocol 9. Additionally, the use of educational scholarships, trainings, and funding different organizations to disseminate new ideologies through so-called capacity building and other means has further entrenched these trends. These contemporary strategies demonstrate how the strategic infiltration and manipulation of media and education are actively reshaping societal norms and values, aligning with the protocol's outlined objectives.

## The Strategy of Fear and Control

A significant aspect of Protocol 9 is the use of fear to maintain control over nations and their leaders. The document speaks of an "all-engulfing terror" and the creation of a mutual fear between the ruling elites and the masses. This strategy ensures that both groups remain divided and subservient to the overarching authority of the clandestine group. The protocol describes this dynamic: *"In this way, the blind force of the people remains our support and we, and we only, shall provide them with a leader and, of course, direct them along the road that leads to our goal."*

This manipulation of fear aligns with the biblical depiction of the Antichrist's rise to power through deception and terror. Revelation 13:7-8 describes the Antichrist's dominion: *"It was given power to wage war against God's holy people and to conquer them. And it was given authority over every tribe, people, language and nation. All inhabitants of the earth will worship the beast—all whose names have not been written in the Lamb's book of life, the Lamb who was slain from the creation of the world."* The parallels between the strategies outlined in Protocol 9 and the prophetic descriptions of the Antichrist's methods are striking, suggesting a coordinated effort to subvert God's plan.

In today's context, these strategies are evident in the pervasive use of fear-mongering in media and politics, often leading to polarized societies and heightened distrust among citizens. The rise of surveillance technologies and the erosion of privacy rights further illustrate how fear is used to justify expanded control over the population. Additionally, the manipulation of information through biased news outlets and social media algorithms has created echo chambers that deepen societal divisions. These contemporary trends reflect the implementation of Protocol 9's strategies, demonstrating how fear and control are used to shape public perception and maintain dominance.

## Historical and Contemporary Implications

The influence of Protocol 9 can be traced through various historical and contemporary events. The document's emphasis on infiltrating media and education, fostering division through fear, and gradually eroding moral values has had profound implications for global geopolitics. For instance, the proliferation of biased media narratives and the growing secularization of educational institutions reflect the strategies outlined in the protocol. These trends have contributed to societal fragmentation, moral relativism, and the weakening of traditional religious values.

Moreover, the rise of authoritarian regimes and the increasing centralization of power in global institutions mirror the protocol's vision of a *"Jewish Super-State"* and an *"International Super-government."* The consolidation of power in entities such as the United Nations and the European Union echoes the protocol's goal of establishing a singular, controlling authority. This centralization is seen as a precursor to the prophesied global dominion of the Antichrist, as foretold in Revelation 13:16-17: *"It also forced all people, great and small, rich and poor, free and slave, to receive a mark on their right hands or on their foreheads, so that they could not buy or sell unless they had the mark, which is the name of the beast or the number of its name."*

## Conclusion

The examination of Protocol 9 of the Protocols of the Learned Elders of Zion reveals a comprehensive strategy for subverting societal morals and establishing a global dominion. Through the infiltration of media and education, the manipulation of fear, and the erosion of traditional values, this document outlines a sinister plan that aligns with biblical prophecies about the rise of the Antichrist. As Christians, it is crucial to remain vigilant, discerning the signs of the times and upholding the truths of Scripture. Ephesians 5:11 admonishes us, *"Have nothing to do with the fruitless deeds of darkness, but rather expose them."* By understanding and exposing these strategies, we can resist their influence and remain steadfast in our faith.
